RJS VERIFIER COMPUTER INTERFACE REPORT (VCIR) REMOVAL Applies to Part Number 002-6511

If you have already uninstalled the software but did not deactivate the license:

You will need to reinstall the software (you will <u>not</u> need to use the Activation Center to reinstall the software). After the reinstallation, follow the procedure below to deactivate the license <u>before</u> attempting to install the software on a different PC.

If you have already deactivated AND <u>did not</u> save the <u>Removal Code</u>:

You will need to reinstall and reactivate the software (even though it will be on the same PC there will be a **new** Site Code and MID code). See Page 4 for instructions

To transfer the VCIR software to a different PC, <u>the license MUST first be removed</u> <u>from the current installation</u> following this procedure:

Step 1 – Press and hold either the <Shift> or <Scroll Lock> key. While holding the key down, click on the link to start the VCIR software. The VCIR software activation window will be displayed:
